Overview of the 70 Times 7 Math Curriculum

With the "70 Times 7 Math Curriculum," there is one curriculum for **kindergarten through 5th grade** students, a second curriculum for **pre-algebra and Algebra 1 students**, a third curriculum for **Algebra 2** students, a fourth curriculum for middle and high school **geometry** students, and a fifth curriculum for **trigonometry** students, for a total of five separate textbooks.

- Kindergarten-5th grade
  Textbook Title: *70 Times 7 Math: An All-In-One Math Book for Grades Kindergarten Through 5th*
  Special Note: The textbook has 6 chapters. All six chapters are studied in grades 3rd-5th, while only the first 3 chapters are studied in grades K-2nd. (See the chart on the following page for the classwork/homework book and other materials that supplement this textbook.)

- Pre-algebra and Algebra 1 students (grades 6th, 7th, and 9th)
  Textbook Title: *70 Times 7 Math: Pre-Algebra and Algebra 1 Textbook*
  Special Note: Pre-algebra and Algebra 1 are taught as a single course. In this program, this textbook is first studied by 6th grade students and then reused in the 7th and 9th grades. (See the chart on the following page for the classwork/homework book and other materials that supplement this textbook.)

- Geometry (Grades 8th and 10th)
  Textbook Title: *Geometry Textbook for Middle and High School Students*
  Special Note: In this program, this textbook is first studied by students in 8th grade and then reused in the 10th grade. (See the chart on the following page for the classwork/homework book and other materials that supplement this textbook.)

- Algebra 2 students (Grades 11th-12th)
  Textbook Title: *70 Times 7 Math: Algebra II Textbook*
  Special Note: In this program, this textbook is first studied by 11th grade students and then reused in the 12th grade. (See the chart on the following page for the classwork/homework book and other materials that supplement this textbook.) There is also a trigonometry textbook available as a variation for 12th-grade students.

- Trigonometry students
  Textbook Title: *70 Times 7 Math: Introduction to Trigonometry*
  Special Note: See the chart on the following page for the classwork/homework book and other materials that supplement this textbook.

Note: The chart below specifies what materials are needed for each grade/subject area. Student textbooks can be purchased in electronic, paperback, or hardback form. The electronic textbooks come with tutorial videos. Please note that answers to problems to be solved on the screen are not included in the electronic textbook for teachers, but they are provided in all student editions if you want to use it as a reference.
